

## Technical Data Sheet

<b>Product:</b>		<b>Product name:</b>	
Aluminium tape		Aluminum tape	
<b>Customer code:</b>		<b>EAN:</b>	
ALUBAND		40 05705 000931	
<b>Application:</b>			
For vapor-tight bonding of joints on insulation underlays and vapor barrier films			
<b>Material:</b>			
Metallized single-sided BOPP tape. 0.030 mm BOPP film; metallized / water-based acrylic			
<b>1. Dimensions</b>			
Length:	50m		
Width:	50mm		
	50m roll		
Thickness:	48 µm		
<b>2. Technical data:</b>			
Adhesive strength on steel:	7,5 N/25mm		
Tear resistance:	100 N/25mm		
Ductile yield:	160%		
Temperature resistant to:	80°C		
Suitable for subfloor heating:	yes		
<b>3. Laying instructions:</b>			
Remove silicon paper and adhere the tape over the middle of the abutment joint. Press down firmly.
